Who We Are

Votron Engineering Services Limited for electromechanical contracting is a private organization located in Lusaka, Zambia, providing professional contracting services in Fire fighting systems, Electrical systems, Light current systems, Plumbing systems, Air conditioning systems, Pumps and Control systems. Votron Engineering Services Limited Co. is an authorized distributor for many international brands in the mentioned fields.

We do not only offer a product, but we offer full technical support, maintenance services and training options.

We have a specialized department for equipment maintenance, our servicing engineers and technicians are available around the clock (24/7) for our customer's support in emergency situations. Furthermore, we support annual and half-yearly maintenance contracts.

Votron Engineering Services Limited Co. provides many services such as, designing, supply, installation, testing, commissioning, servicing and maintenance of various systems to meet the local and international codes. The key behind our success and growth is mainly the highly skilled and experienced project managers, mechanical and electrical engineers, site-supervisors, safety officers and a huge number of skilled labor force experienced in all types of projects.

Vision.

To be one of the major electromechanical solutions provider in the Southern Africa

Mission.

To provide high quality systems, services and achieve high customer satisfaction.

Core Values.

Integrity

Integrity is indispensable to our mission.

We act with honesty and adhere to moral and ethical values.

Respect

We respect, care and have dignity towards all individuals and value our diversity as a source of strength.

Clients

We focus on the best interest of our clients to build a long-term relationship with them.

Innovation

We embrace new ideas and provide sustainable and developed technology.

Our Services.

Votron Engineering Services Limited specializes in the provision of engineering solutions with a management team with very high skills and experience.

We offer design, technical office work, supplements, installations, commissioning, as built and hand over up to the warranty period for all electromechanical works

Our Company enjoys the reputation of performance built on excellence as seen in our clients' confidence by awards of repeat businesses and valuable references.

Our dedication in performing our services takes into careful consideration the bottom line targets of the Client to have the projects completed on the set time frame and budget. The importance of catering to the objective of the client starts right at the inception where our estimation and purchasing division work closely with the customer's project specification prioritizing transparency and ensuring no surprises during project implementation.

Employing the services of Votron Engineering Services Limited Co. comes with the highest level of commitment and involvement which the Client expects to maintain a close coordinative and collaborative working relationship throughout the development and construction process.

We are ready and willing to roll up our sleeves and get the work done at any time. Votron Engineering Services Limited's guarantee in the provision of the electro-mechanical services is the continuous focus on finding ways to add value to the services we provide and to reduce its costs. We strongly believe in the philosophy of sharing risk and benefit and we have developed flexible and innovative contracts with many of our clients.

We would be glad to do the same for you.

Contracting Capabilities.

Project Manager

Installation, commissioning at the site and to the end of the guarantee period.

TeamWork

"We support and encourage open communications and meaningful cooperations among colleagues from varying backgrounds and disciplines."

Subcontractors

Our choice and appointment of subcontractors is subject to the client's agreement. Votron Engineering Services Limited. for Electromechanical Contracting ensures that the appointed Subcontractor meets the requirements of the contract in terms of program of work, Inspection & Test Plan and Purchase Order requirements.

Planning

Where appropriate and practical, project personnel shall interface with the Estimating personnel to establish awareness of the scope of work. Project personnel shall ensure to report back to the concerned departments about problems with existing procedures on current projects and in previous projects. This will provide an important feedback loop for project planning and additionally help to ensure that all parties concerned are committed to the scope of work awarded.

Votron Engineering Services Limited for Electromechanical Contracting uses latest version of softwares to carry out its Planning processes and Specific.

Quality Assurance/ Control

A logical progression of the processes involved during contract execution is presented in a Quality Plan.

Votron Engineering Services Limited for Electromechanical Contracting develops project - Specific Quality Plans based on the contract Specifications and requirements, which enable the team to monitor engineering, procurement and manufacturing activities.

Installation and Commissioning

Votron engineering Services Limited Co. for electromechanical contracting offers:

- Design.
- Supply.
- Site installation.
- Site supervision.
- Own labor force.
- Full on-site commissioning.
- In-house training of clients/operators.
- Maintenance contracts.

Design Capabilities

Votron Engineering Services Limited for Civil , electromechanical contracting has the capability to use client requirements and specifications as a basis to carry out full designs and produce detailed working drawings using the latest computer-aided design softwares.
